Level CLUSTERS

These level clusters have been designed to offer a variety of books across five reading levels to meet the different needs and abilities of students in today's reading groups.

- All books included in these clusters are from a variety of publishers — providing books in different formats and type sizes.
- Each level cluster contains one copy of the listed title and spans the 5 levels indicated.
- Every title included in these collections appears on either the Reading Recovery Book List 2009 or a previous listing.

LEVELS 1-5 5 NEW TITLES!

AKJ Multi-level COLLECTIONS

These 4 collections are perfect ways of starting a Reading Recovery Library, expanding your existing one, or updating your current set of books.

- All books included in these clusters are from a variety of publishers — providing books in different formats and type sizes.
- Each Multi-Level Collection contains at least three titles from each level, 1 – 20. As each collection gets bigger, there will be greater title breadth. Note, there are no duplicate copies used in the Multi-Level Collections unless a title needs to be substituted.
- Each Multi-Level Collection is individually packaged and labeled for easy and immediate use.
- Every title included in these collections appears on either the Reading Recovery Book List 2009 or a previous listing.

Alphabetical Title Index

Reading Recovery® is a registered servicemark of Ohio State University.

The complete Reading Recovery Book List, created by the Ohio State University, includes books from numerous publishers, since a premise of the program is that children be provided with a wide range of reading material. One publisher's book list alone is not sufficient to implement a Reading Recovery Program.

Book levels are subject to change as they are periodically tested and re-evaluated.
